

A NIGHT WITH THE FOLKS

Our parent and carers workshop aims to strengthen the relationship between parents and their teenagers.

WHAT TO EXPECT

Our highly experienced facilitators will run through an engaging experience similar to what participants experience in the Tomorrow Man and Tomorrow Woman workshops.

Our facilitators will share experiences and learnings from working with teenagers for over 15 years. You will gain an insight into the experience and impact of gender stereotypes on our young people and the value of deepening connection.

We also provide an opportunity for questions and help you to understand how you can continue to strengthen the relationship between you and your teenagers.

Our 'A Night With The Folks' workshop can be delivered virtually or face to face.

**My husband and I took part in the parent evening.
It was a profound and inspiring moment for both of us.**

**Keep spreading the knowledge and our kids will feel the
benefits.**
